

# Sachin Angadi

Bengaluru, Karnataka, India

Cloud Support Engineer - II (Deployment) at Amazon Web Services (AWS)

---

## Summary

Customer-facing DevOps / Deployment Engineer at Amazon Web Services, with special focus on containers. I have extensive knowledge on AWS containerization services such as 'Elastic Container Service (ECS)', Fargate, Kubernetes (EKS), App Mesh, Deep Learning Containers.

---

## Experience

Cloud Support Engineer - II (Deployment) at Amazon Web Services (AWS)

April 2019 - Present (2 months)

My special focus is to help our customers containerize their application, container optimization, migrate container workloads from on-prem / other cloud provider to AWS managed docker containers (ECS) and Kubernetes (EKS).

Cloud Support Engineer - I (Deployment) at Amazon Web Services (AWS)

July 2017 - March 2019 (1 year 9 months)

Extensively worked on deployment related services such as Cloud Formation, Elastic Beanstalk, Containers and Code Suite to help in solving complex customer issues. Assisted many of our customers with architecture guidance, best practices, integrating traditional stacks with AWS infrastructure.

Internally, I am accredited Subject matter expert for EBS Storage.

Cloud Support Associate - II at Amazon Web Services

June 2016 - June 2017 (1 year 1 month)

Senior Operations Professional at IBM India Pvt Ltd

November 2013 - June 2016 (2 years 8 months)
